macom[®] COMPRESSION WEAR

Compression & Shapewear Designed By Experts

hello, we are macom[®]

we are a UK brand with two decades of experience creating handmade compression wear. Our aim is to provide safe and comfortable post surgical solutions by bringing you the highest quality garments and bras to enhance surgical outcomes and reduce the associated risks. All products are manufactured in our state-of-the-art factory. All garments have been designed in collaboration with medical professionals; our team of experts firmly believe that compression should not be complicated.

therefore we make garments that are fuss-free; think expandable cups, open or detachable gussets and adjustable hook & eye fastenings. The 4-way Enhanced Movement Technology medical-grade stretch enhances blood micro circulation, reduces inflammation, improves lymphatic drainage, and accelerates delivery of nutrients and oxygen to ensure good healing and scarring.

macom[®] garments are loved by thousands of satisfied customers the world over due to their discreet design, effectiveness and Soft Touch comfort.

how long should you wear compression? between 6-12 weeks. Always check with your Surgeon / healthcare professional.

all macom[®] garments are hypoallergenic, latex free and contain no harmful chemical compounds. Garments can be worn straight after surgical procedure.
